FINAL
PROGRAMME

6TH CONFERENCE OF THE
EHSF 2017

European Hidradenitis Suppurativa Foundation e.V.

8-10 FEBRUARY
COPENHAGEN, DENMARK

WELCOME MESSAGE

Dear Colleagues,

Welcome to the 6th Conference of the European Hidradenitis Suppurativa Foundation. Hidradenitis suppurativa has never attracted so much attention before and the need for exchange of information and opinion has never been greater – which is good news for both – patients and researchers. The conference will support the flow of new ideas in the field, by bringing together the key stakeholders in a programme that we hope will offer something to both patients and researchers in academia as well as industry.

There is much catching up to do with Hidradenitis, but although many other fields have an advantage they have gained over time, we have the advantage of starting in the current golden era of new biomedical research techniques. The catching up may therefore prove to be faster and more effective than one may fear. Another advantage offered by the conference is the facility for collaboration, which is even greater in Hidradenitis than in many other fields because of the many opportunities for even basic discoveries and an inclusive community. We learn and develop from being inclusive rather than divisive.

Finally, we hope that the better understanding of the disease will also open the way for a broader collaboration with the non-dermatological community, based on the unique biological characteristics of Hidradenitis.

We invite you to join us for a memorable conference here in Copenhagen from 8 to 10 February. Enjoy Copenhagen as the world's most liveable city, as vibrant metropolis, gateway to Scandinavia, large enough for every kind of life philosophy, but small enough to bicycle from one end to the other in twenty minutes.

I look forward to welcome you in wonderful Copenhagen and thank you in advance for joining us at the 6th Conference of the EHSF.

On behalf of the Organising and Scientific Programme Committees

Gregor B. E. Jemec
President, 6th EHSF Conference

Travel Information

By Public Transport

You will find DGI-byen 50 metres from Copenhagen Central Station. Use the exit towards

Tietgensbroen. The Copenhagen Metro drives at all hours of the day. During rush hour it arrives every 2–4 minutes. Outside rush hour and on the weekends it drives every 3–6 minutes. Buses and trains serve at all hours of the day. For more information on public transportation in Copenhagen, please visit www.visitcopenhagen.com.

By Car

DGI-byen is located close to freeways E20 and E47. Take exit 20, stay on the left towards Sluseholmen. Continue straight along Sydhavnsgade. Then stay on the right going towards Copenhagen C, and use the exit ramp at Fisketorvet – Copenhagen Mall. Turn left across Dybbølsbro and continue right on Ingerslevsgade. DGI-byen is located on your left, approx. 500 metres further on.

DGI-byens's Car Park

An indoor parking facility with 192 spaces, centrally located with entry from Ingerslevsgade, 1704 Copenhagen V.

By Plane

The closest airport is Copenhagen Intl. Airport. Trains leave the airport every 10 minutes for Copenhagen Central Station, with the journey taking approx. 15 minutes.

ABOUT COPENHAGEN

The metropolitan city Copenhagen is compact, safe, vibrant, eco-friendly and efficient. It's the capital city in Denmark, built on respect for the past, but focused on the future. You will find modern architecture blended in with 1000-year old colourful buildings, beautiful canals and locals commuting on bikes, as the city has made cycling the fastest and most enjoyable form of transportation. Everything is close at hand with an international airport just 15 minutes away from the city centre. The city is also designed for pedestrians and you will find that it is easy to navigate the cobbled streets of Copenhagen. If you do need to ask for directions, then don't hesitate to ask the locals since the majority of Danes speak English fluently. Copenhagen is a harbour city and in terms of cultural life and creative growth it's flourishing any time of the year. Considering the city's size, Copenhagen is packed with events and festivals of all genres; food, fashion, jazz, rock, ballet, art, design and sustainability.

The city has been praised for its infrastructure, culture and sustainability efforts and has been named the 'World's most liveable city' repeatedly and Danes have been ranked World's Happiest People over and over again. The Copenhageners hold a world record in consumption of organic food and the New Nordic Cuisine is based on fresh produce from local purveyors and the surrounding sea. The city offers traditional Danish dishes like Smørrebrød (open-faced sandwiches), delicious street food and 16 Michelin starred restaurants.

Sightseeing in Copenhagen

- ☞ Must see view: Round Tower
- ☞ Must visit attraction: Visit Carlsberg
- ☞ Must eat lunch: Danish Smørrebrød at Torvehallerne
- ☞ Must eat dinner: Any place in the Meatpacking district next to DGI-byen
- ☞ Must drink cocktail bar: Curfew/Le Bambole
- ☞ Must drink beer bar: Fermentoren

The Little Mermaid

At Langelinje Pier you will find one of Copenhagen's most famous tourist attractions: The sculpture of The Little Mermaid. 23 August 2013 she turned 100 years old.

- ☞ Langelinie 2100 København Ø

Must see spot: Nyhavn

Especially during summer Nyhavn is the perfect place to end a long day. Have dinner at one of the cosy restaurants or do like the locals and buy a beer from a nearby store and rest your feet at the quayside.

- ☞ Nyhavn 1-71, 1051 København K

Strøget

Strøget is one of Europe's longest pedestrian streets with a wealth of shops, from budget-friendly chains to some of the world's most expensive brands.

Patient Forum

Bente Villumsen (Copenhagen, Denmark)

You often meet the patients, but what is under their skin? HS affects patients' quality of life, and there is a personal story behind every DLQI score. We have some of the numbers come to life with patients who will talk about the impact of HS on life, plans, dreams and hopes. Learn about pain management, hiding and sharing, and about coping strategies. This session is planned, lead and told by patients.
